

# Manual Nanolex Premium Paint Cleaner

## **Product Description:**

Nanolex Premium Premium Paint Cleaner is an alcohol based cleaner for painted surfaces. This cleaner removes cutting and silicon oils, soiling, and is designed for cleaning paint before an application of Nanolex Premium/Professional Paint & Alloy Sealant.

**This product can be stored for up to 36 months (in a dry, temperature stable environment)**

## **Consumption:**

appr. 15ml/m<sup>2</sup>

**Processing temperature:** 15-30°C - Avoid direct sunlight and/or high air humidity.

## **SAFETY REFERENCE:**

The usual behavior rules regarding chemical substances are to be followed during the use of all car care products: Make sure that the room you work in is ventilated enough. In case you have eye contact rinse the eyes out for at least 15 minutes, especially under the eyelids. In case a liquid was swallowed make sure you drink a lot of water and avoid to vomit – see a doctor immediatly. Keep out of the reach of children. Keep out of surface water and drains.

## **1. Cleaning with Nanolex Premium Paint Cleaner**

Shake the bottle containing the Nanolex Premium Paint Cleaner well before use.

Pour Nanolex Premium Paint Cleaner onto the surface or onto a wet cloth. Clean the paint surface in circular movements, until the surface is completely clean and free of any cleaner residue. Polish the clean surface to a clear dry state free of streaks.

## **3. Checking for cleaning efficiency of Nanolex Premium Paint Cleaner**

If Nanolex Premium Paint Cleaner is used as a pre-cleaner for Nanolex Paint Sealants, water must spread into a uniform film right after cleaning and must not collect into drops.

## **4. Important Note**

If Nanolex Premium Paint Cleaner is used as a pre-cleaner for Nanolex Paint Sealant do not use wipes that contain skin care or any other cleaning agents. Residues of these substances can reduce the adhesion of the later applied sealing.

Disposal: regard your local rules and regulations
